APPLICATION TECHNIQUE

Step by step application guide.
Materials and tools preparation before painting.

TOOLS

Roller

Scraper

Tray

Trowel

Ensure the substrate is dry, solid, clean and free from any dust or grease residue.

1

Apply 1-2 layers of primer, and let it cure for 1 hour.

2

Apply first layer of texture (B) with a trowel evenly, make sure to cover the entire surface.

3

Apply second layer of texture (B) with a trowel, and perform random motion to create desired texture.
Continuously repeat the motion until the desired texture is achieved, ensuring it's completed before the paint dries.

4

Helpful Tip:

Ensure that the trowel or scraper remains free from dried paint, dirt and debris. Have a damp cloth ready to wipe away any dried paint, dirt or debris.

*Optional
Apply top coat (C) with a brush or trowel.
